

HIGH TEMPERATURE ADHESIVE CREPE TAPE

DESCRIPTION

This very high quality crepe paper tape is designed for high temperature applications and also, due to its thickness, gives excellent coverage.

APPLICATIONS

- High temperature masking
- Hold down
- Outer wrap

PROPERTIES

- Operating Temperature: 105°C
(180°C short term)
- Thermal Class : A
- Dielectric Strength : 10.5 kV/mm
- Tensile Strength : 50 N/cm
- Adhesion to steel : 4.4 N/cm

CHARACTERISTICS

- Good temperature resistance
- Good aesthetic qualities

AVAILABILITY

Only available in natural (buff) colour but in a wide variety of widths.
