

# COTTON TAPES

---

## DESCRIPTION

Cotton tapes are traditionally used for their excellent absorption characteristics with varnish and resins, and have been used in electrical equipment for many years.

## APPLICATIONS

- Coil insulation
- Outer wrap
- Coil cell manufacture
- Good varnish support

## PROPERTIES

- Operating Temperature: N/A
- Thicknesses from 0.25 to 0.45mm
- Tensile Strength : 250-300 N/25mm
- Warp : 58-61 ends
- Weft : 8-15 per cm

## CHARACTERISTICS

- Highly absorbent
- Good tensile strength

## AVAILABILITY

Available in standard sizes of 6, 12, 19, 25, 38 and 50mm and in three qualities, Indian, Egyptian and Medium Weave.  
Colour is natural (white).
