

WOVEN TERYLENE TAPE

DESCRIPTION

This tape has high tensile qualities and exhibits excellent handling characteristics.

APPLICATIONS

- Wrapping coils
- Tying
- Rotating machines

PROPERTIES

- Operating Temperature: 130°C
- Thermal Class : B
 - with impregnation often used to Class F

CHARACTERISTICS

- Good tensile strength
- Compatible with impregnation
- Shrinkable

AVAILABILITY

Available in standard sizes of 6, 12, 19, 25, 38 and 50mm in natural (white) colour.
