

# SPUN POLYESTER TAPE

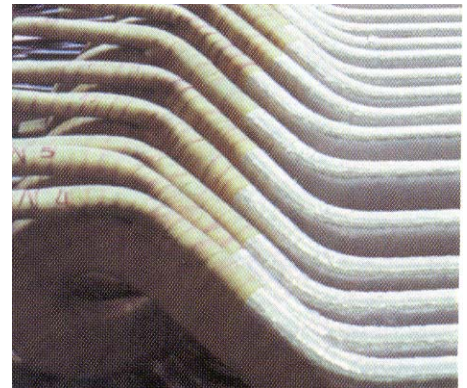

---

## DESCRIPTION

This is a woven tape with a non-twisted assembled polyester yarn which adds swelling to the tape, making it conformable to uneven surfaces.

## APPLICATIONS

- Wrapping coils
- Finishing tape
- Coil cell manufacture

## PROPERTIES

- Tensile Strength : 30 daN
- Weight per M : 1.7g
- Thickness : 0.4mm

## CHARACTERISTICS

- Good aesthetic qualities
- Highly absorbent

## AVAILABILITY

In white as standard, although other colours are available on request in the normal widths of 6, 12, 19, 25, 38 and 50mm
