

# ELEPHANTIDE/MELINEX

---

## DESCRIPTION

This laminate of Polyester Film and Elephantide high grade presspaper give a good combination of thickness and mechanical strength, together with good dielectric properties.

## APPLICATIONS

- Slot liners
- Coil separation
- Phase separation
- Intercoil insulation
- Outer wrap
- High frequency welding barrier

## PROPERTIES

- Operating Temperature: 120°C
- Thermal Class : E

## CHARACTERISTICS

- Flexible
- Mechanically strong
- Easily conformable
- Good dielectric strength
- Good chemical resistance
- Accepts impregnation

## AVAILABILITY

As a two-ply or three-ply laminate in thicknesses from 0.15mm to 0.4mm, in any width required.
